

Bishop - B

Moves and captures along the diagonals. One bishop will always stay on the dark squares and one bishop will also stay on the light squares.

A bishop is worth 3 pawns.

Opening position for the Rooks, Knights and Bishops

Bishop vs. Pawn Game

If the white Bishops capture all the pawns before a pawn can reach the back rank—
White Wins. If a black pawn can reach the back rank or capture both of the Bishops—
Black Wins. Can you capture all of the pawns before they reach the final rank?
