## Caring Communities

Data Book **December 2013**

---

A review and analysis of the community surrounding the Caring Communities site located at Genesis Promise Academy in Kansas City, Mo.

# Introduction

## About Caring Communities

Caring Communities was developed by the Local Investment Commission (LINC) to fulfill the role once played by the courthouse square: a place where the community gathers together, shares ideas, and holds neighborhood events. The growth of Caring Communities reflects increasing national interest in creating “community schools.”

The LINC Caring Communities effort, which began in 1992, has grown to more than 80 sites in seven school districts in Kansas City and Jackson County, MO. LINC’s school district partners include Kansas City, Independence, Fort Osage, North Kansas City, Hickman Mills, Grandview and Center. Other partners include charter schools, local government, state agencies, and community organizations.

## About This Book

The Genesis Caring Communities Data Book is intended to provide useful information for decision-makers of the Genesis community — parents, neighbors, site council members, staff and the general public. We hope the facts, figures and resources contained in this book will help these decision-makers to better understand their neighborhoods and identify needs and opportunities for better coordination of services. We hope this book will help build on the success of Caring Communities and help it thrive in the future.

To request additional copies of this book, or to suggest improvements for future editions of this book, contact the Genesis Caring Communities Site Coordinator. The book is also available to download for free at [www.kclinc.org/sitebooks](http://www.kclinc.org/sitebooks)

## What is a Community School?

A community school is both a place and a set of partnerships between the school and other community stakeholders which leads to improved student learning, stronger families and healthier communities. Community schools are open to everyone—all day, including evenings and weekends. Community-based organizations or public institutions often work as lead agencies in community schools, helping to mobilize community assets and support students success.

**Coalition for Community Schools**  
[www.communityschools.org](http://www.communityschools.org)

## Community Analysis Zone (CAZ)

The Community Analysis Zone (CAZ) for the Genesis community was established using Genesis Promise Academy as a reference point and includes the area within a two-mile radius of the school (the black circle in the map at right).

The CAZ allows for analysis of data about residents, neighborhoods and services within the community served by the Caring Communities site.

For the purpose of this book the boundaries of the Genesis CAZ and the “Genesis community” are the same, and the terms “CAZ” and “community” are used interchangeably.

Data for the site book was obtained from a number of resources including but not limited to the City of Kansas City, MO; U.S. Census Bureau; Jackson County, Mo.; Missouri Department

of Elementary and Secondary Education; Missouri Department of Health and Senior Services; United Way of Greater Kansas City; Missouri Department of Social Services; University of Missouri-Kansas City Center for Economic Information; and University of Michigan National Poverty Center.

Community data was analyzed by census tract within the CAZ (red lines). Census tracts are small, relatively permanent statistical subdivisions of a county delineated by local participants as part of the U.S. Census Bureau's Participant Statistical Areas Program. The U.S. Census Bureau delineated census tracts in situations where no local participant existed or where local or tribal governments declined to participate. Census tracts generally have between 1,500 and 8,000 people, with an optimum size of 4,000 people. (Source: U.S. Census Bureau).
